## Core Values :

Integrity

Efficiency

Timeliness

Accountability

The last decade was challenging with the establishment of many clearing and forwarding businesses in the country in a highly unfair competitive environment. Furthermore the company had lost its international partnership and was looking out for a credible partner to expand its shipping operations without success.

Under the New Direction (since 2018 to date) and with the lobbying skills of the current leadership, the company has been legally strengthened to provide clearing and forwarding services to all government ministries and agencies as contained in section 33 Finance Act 2019 which provides that
